Subject: RE: draft summary of assumption notice (for R4 website)

Thanks everyone! Here is the version that incorporates everyone's comments that I'll move forward for website publication, hopefully today.

Notice of Florida's Request to Assume Administration of a Clean Water Act Section 404 Program

On August 20, 2020, the EPA received from the Governor of the State of Florida a complete program submission for regulating discharges of dredged or fill material into waters within the jurisdiction of the State in accordance with the Clean Water Act Section 404. EPA Region 4 Administrator Mary S. Walker signed a notice regarding this matter on September 2, 2020, and the EPA is submitting this notice for publication in the *Federal Register* (FR). The notice is anticipated to be published in the FR in the near future and will: (1) solicit public review and comment on the State program during a 45-day period; (2) announce two public hearings that will be held during the comment period; and (3) solicit public review and comment regarding consultation under the National Historic Preservation Act. The notice also directs the public to this EPA Region 4 website to register for the public hearings. This website will be updated to make registration available upon publication of the notice in FR. The pre-publication notice is provided below. The State of Florida's program submission will be available through the EPA's docket (Docket No. EPA-HQ-OW-2018-0640) upon publication of this notice in the FR, and in the meantime it may be accessed at: <https://floridadep.gov/water/submerged-lands-environmental-resources-coordination/content/404-assumption>.
